

# Stick Catcher

A true classic! We are all familiar with this game, because it is so much fun! The frame of this stick catcher comes with 10 electromagnets holding the sticks. They can be switched on and off by using the control box, which is connected to mains supply. You can hang any object you want on the electromagnets, as long as it's not too heavy. However, we recommend using the special sticks you can purchase from us.
